Greyhound Adoption Program QLD Newsletter September 2024

The Greyhound Adoption Program (GAP) QLD is run by the Queensland Racing Integrity Commission (QRIC) and is dedicated to finding homes for greyhounds that have retired from racing or for a variety of reasons have not made the track.

FROM THE CANINE HEALTH OFFICERS

Dental health week was in August and as greyhounds are more predisposed to dental disease, the GAP Canine Health Officers recommend these top tips for maintaining your greyhound's dental health and to keep them smiling.

1. Brush your dog's teeth 2-3 times a week using dog specific toothbrush and toothpaste.
2. See your local veterinarian at least twice a year for a dental check.
3. Give your dog dental toys and snacks to help brush the surfaces of their teeth and reduce plaque.

CHECK YOUR CHIP

Is your animals microchip up to date?

Thursday 15 August saw the **National Check the Chip Day**. This national day raises awareness around the importance of a microchip and keeping your details up to date. A microchip with current contact details will help quickly reunite your lost animal. All GAP greyhounds have a microchip, and we encourage you to update your details when your circumstances change.

FOSTER FAMILIES

Cash is thoroughly enjoying his foster family. He is in his third week of living in foster care and his carers say it feels as though he has been there for a lot longer. He has adapted to “pet life” so well and quickly. He loves the car, his daily walks, meeting new people (he’ll take pats all day) and he has now found a new love for the beach. He is a big water baby!

The GAP team are looking for more foster carers and further information can be found [here](#).

A MOMENT'S PAWS

Take a moment to meet our newest GAP greyhound looking for a retirement home...

Chucky is a confident, happy soul. He is still refining his manners around food but thinks that snacks and food are great. Chucky is eager to learn, listens well and is very foot motivated.

DOB: 28 March 2021

Colour: Fawn

-  He could live with older kids/teens
-  Chucky could live with a medium/large breed dog.

WHAT'S UP, DOG?

"I thought I'd provide an update on my girl Rosie who I adopted back in 2019 at the age of 9. She turns 15 in November!! She is still going strong although her eyes and ears don't work as well as they used to, and her zoomies have lost some of their power! Here are a couple of photos, one with her Frenchie sister Lulu.

Thanks for bringing this wonderful pup into my life! She has brought me immense joy."
